FOREIGN GRANTOR TRUSTS **

Foreign Grantor Trusts (FGT) are Trusts established by a Settlor in a foreign jurisdiction. For purposes of U.S. taxation, the Settlor cannot be an U.S. citizen, resident or taxpayer. The FGT is created and administered under the laws of Grenada and the Trustees are not located in the U.S. or its possessions. For purposes of U.S. taxation, the assets and profits of the FGT are treated as if owned by and taxed to the Foreign Settlor, and as such should not be subject to U.S. taxation, unless the assets are situated in the United States. In the case where the assets are situated in the U.S., there may be tax consequences.

Benefits

U.S. citizens or residents may transfer money directly to a FGT. There are income tax benefits to the FGT in that non-U.S. citizens and residents are taxed in the U.S. only on income derived from the U.S. that is fixed or determinable such as interest, dividends, rents etc. Non-U.S. citizens are not taxed on capital gains unless the capital gains relates to conduct of a U.S. business or trade or relates to U.S. real property interest. There is no U.S. gift tax applied to gifts of intangible property by non-U.S. citizens or residents.

Costs

A new Foreign Grantor Trust can be established through PIL for the cost of \$300. An additional document amendment fee of \$25 will apply for existing trusts. These fees can be deducted directly from Trusts or mailed in with a Letter of Wishes requesting a FGT. The Trust documents will be reissued naming the foreign Settlor, and a Power Of Attorney will be provided to the member in order that the member may carry out activities in the name of the Trust.
